

A Cut Above the Rest

SHUR/Sharp™

A name you can depend on for superior disposable microtome blades, holders and sectioning accessories. The **SHUR/Sharp™** one-step lever activated holder will perform flawlessly for years. Choose a high, low or the new interchangeable high/low profile holder with or without an extended handle to eliminate knife guard interference or select the size that accepts TBS's own proprietary heavy duty blade. We guarantee the same great quality regardless of the blade preference.

SHUR/Sharp™ & SHUR/Sharp™ PLUS Heavy Duty, and High & Low Profile Blades

Choose from six disposable microtome blades to meet all your sectioning needs. Standard blades for routine tissue samples and heavy duty blades for cutting difficult tissues and frozens are available for the TBS intermediate height slotted holder. **SHUR/Sharp™** high profile blade fits all high profile holders. **SHUR/Sharp™** high and low profile blades are available to fit any high or low profile blade holder you prefer. **SHUR/Sharp™ PLUS** is the perfect selection when ultra thin sections are required. All blades feature a Teflon coating to reduce compression.

Cryostat Adapters

Allows the Sakura Tissue-Tek® cryostat to take advantage of the benefits of a **SHUR/Sharp™** blade holder. The adapters simply screw onto the back of the blade holder for mounting directly to the microtome. Guaranteed to improve the quality of your sections.

Anti-Roll Device

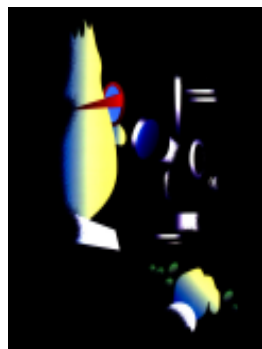

Snap it on or off a TBS holder. This unique magnetic attachment system positions a clear plastic plate above the blade in order to facilitate specimen handling.

“Our Edge Is The Leading Edge”

Ordering Information

Catalog #	U/M	Description
DMBH	ea	SHUR/Sharp™ Disposable Microtome Bladeholder, 100% Stainless Steel construction, Unconditional 2 year warranty, requires DMBH or DMBH-HD SHUR/Sharp™ blades.
DMBH-E	ea	Same as DMBH but with extended handle to eliminate knife guard interference.
DMBH-LP	ea	Same as DMBH but designed for use with any low profile microtome blade.
DMBH-LPE	ea	Same as DMBH-LP but with extended handle to eliminate knife guard interference.
DMBH-HP	ea	Same as DMBH but designed for use with DMBH-AO or any high profile microtome blade.
DMBH-HPE	ea	Same as DMBH-HP except with extended handle to eliminate knife guard interference.
DMBH-HPLP	ea	Patented SHUR/Sharp™ blade holder designed for interchangeable use of low and high profile blades.
DMBH-CA	ea	Cryostat Adapter required for using DMBH (all) in Tissue-Tek® cryostats.
ARD	ea	Anti-Roll Device for use with all TBS® bladeholders.
ARD-P	ea	Replacement plate for ARD.
CA-KS	ea	Knife Slide adapter required for using DMBH-HD on the bladeholder provided with Leica Cryostats, models 1800 and 2800.
DMBH-HD	pk/cs	SHUR/Sharp™ Disposable Microtome Blade, Coated, Heavy Duty, (0.020" x 0.498" x 3"). Requires DMBH or DMBE-E Disposable Microtome Blade Holder. 35/pk, 10pk/cs.
DMBH-LP	pk/cs	SHUR/Sharp™ Disposable Microtome Blade, Coated, Low Profile, (0.012" x 0.312" x 3"). 50/pk, 10pk/cs
DMBH-LP+	pk/cs	SHUR/Sharp™ PLUS Disposable Microtome Blade, Coated, Low Profile, (0.010" x 0.312" x 3"). 60/pk, 10pk/cs
DMBH-HP	pk/cs	SHUR/Sharp™ Disposable Microtome Blade, Coated, High Profile, (0.012" x 0.553" x 3"). 50/pk, 10pk/cs
DMBH-HP+	pk/cs	SHUR/Sharp™ PLUS Disposable Microtome Blade, Coated, High Profile, (0.012" x 0.553" x 3"). 60/pk, 10pk/cs
TTOH	ea	Moveable Object Holder for Tissue-Tek® cryostat, includes clamp and three (3) ball end chucks.
BEC	ea	Additional ball end chucks for TTOH.
