ENVIRONMENTAL INFORMATION
<p><b>Steps to be Taken in Case Material is Released or Spilled</b> Wear self-contained breathing apparatus, rubber boots and gloves. Recover free wax and dispose in appropriate solid waste area. Add absorbent (sand, vermiculite, sawdust) to spill area, as wax fragments are a slip hazard. Collect absorbent and dispose in the same manner as recovered material. Wash and ventilate spill site after pickup is complete.</p>
<p><b>Disposal</b> Must comply with federal, state and local regulations.</p>
<p><b>Protective Gear</b></p>
<p><b>Precautions to be taken in handling and storage</b> Care must be taken when handling molten product to prevent burns and avoid breathing of vapors. Store at 25°C. Keep storage container tightly closed. Avoid contact with skin and eyes. Do not inhale. Wash thoroughly after handling.</p>
